The **THINK SAFETY** Magic Show

Without a doubt, safety is no accident and good safety habits learned in childhood will yield a lifetime of benefits. Learning while being entertained, or "edutainment" as it is referred to by professional educators, is one of the most effective ways of getting your message across to young audiences. The opportunity to educate is everywhere; school assemblies, private parties, shopping centers, fairs, festivals and promotional events. The **Think Magic Safety Show** was created specifically to blend the serious message of safety with magic, a combination that appeals to all ages.

Magic with Colors

Magic with Numbers

Optical Illusions

Laugh & Learn

Easy to Understand

The safety message is clear, and reinforced through audience participation and plenty of magical fun. The show's flexible structure allows sections to be changed to adjust the magic and message to match the age level of the audience. The magic performed is easy to understand, highly visual and can be appreciated by students from preschool through middle school; teachers too!

Perfect for schools, shopping centers, health fairs and parties

Participatory fun for everyone
